Tailwind	Jest, Cypress
Storybook	React Query
GraphQL	MobX
Docker	Redux Saga
MongoDB	Zustand

LANGUAGES

English	B2-C1
Russian	Native

Kirill Goriakin

Frontend Developer

SUMMARY

Frontend web developer with **3 years** of experience working on freelance. During this time, focused on **HTML/CSS** layouts, creating new websites from scratch, and maintaining existing ones on Wordpress/PHP. Transitioned to **React** and have been working on **projects** to develop my skills in this area. Currently seeking new opportunities to grow and further develop my skills as a professional frontend web developer.

PROJECTS

Paint Online

A web application that allows you to draw with other people in real time. It uses **WebSocket** protocol.

React, TypeScript, MobX, ChakraUI, ExpressJS with Express-WS.

Chat Up

A live chat application which has email and Google **authorization**. Used **Firebase** as backend.

React, TypeScript, Redux ChakraUI, Firebase, Firestore Database.

CloneTube

A YouTube clone written on **NextJS**. YT-API is used to fetch data from real YouTube. It also has some animations.

React, Next, TypeScript, Framer Motion.

Review App

An application where you can locally post your reviews about anything. In each review, you can write a title and description, score and even look up a picture on the Internet with title. Reviews can have **tags** and **folders**. Implemented **search**, **filter** and **sorting**. This application is fully **translatable**, and you can switch languages with **language switcher**. It also has **tests** on **Jest** and **Cypress**.

React, TypeScript, Redux, Redux Persist, MUI, Jest, Cypress.

Deep ToDo list

A todo list where you can add **nested todos** (infinitely deep), remove them, **search**, **filter** and change their order with **drag & drop**. You can also import and export your project as a json file.

React, TypeScript, Redux, Redux Persist, MUI, Jest.

More projects can be found in my portfolio: kirillgoryakin.vercel.app

WORK EXPERIENCE

Freelance - Frontend Developer

(3 years) 2019 - 2022

- Developed more than 75 pages, ensuring **responsiveness** and **usability** across all devices and browsers.
- Provided ongoing maintenance and support for existing websites, ensuring that they remained up-to-date and functional. Used **HTML/CSS** and WordPress/PHP platform.
